### WHITE RESUMES.

WHITE RESUMES.

The resolutions providing for the annexation of Hawaii were then laid before the senate, Mr. White (Cal.) resuming his speech, begun on yesterday, in opposition to the resolutions. Mr. White presented additional arguments and citations of an theorities to establish his position that annexation of foreign territory must be by treaty and could not be by legislative act. After concluding his presentation of the legal and constitutional objections he had to arres against the resolutions, Mr. White entered upon a discussion of the statement that the possession of the Hawaiian Islands was a military accessity to the United States, particularly as the government now had important interests in the Philippines. He ridiculed the idea that the Hawaiian group was needed by this country as a half way station to Manila. He pointed out that from San Francisco it was 4,300 miles nearer to Manila by way of Unabaska than it was by Honolulu. He said, too, it had been urged that the Hawaiian Islands were needed as a defense of the Nicaraguan canal. He thought it much more destrable to defend the canal from San Francisco, which was only 2,300 miles from the terminus, or miles from the t Diego, only 2,220 r length Mr. White of the naval and

ADMINISTRATION TOOL ROAST-ED BY SIMPSON.

Washington, June 22 .- A bill incorporating the National Congress of Mothers was passed when the house met today. The conference report upon the bill to ratify the agreement be-

Mr. Simpson (Pop., Kan.) created something of a diversion by rising to a something of a diversion by rising to a question of personal privilege. He proceeded to read from a report of Representative Grosvenor's speech before the Ohio Republican convention, in which the Ohio member was reported as having said, after a reference to the opposition to the Republicans in the house having voted in the interest of the "reconcentrados" for a \$50,000 appropriation, that nine out of every ten of those gentlemen had voted "No" upon every subsequent appropriation. upon every subsequent appropriation bill for the suffering soldiers of the

Mr. Dalzell (Rep., Pa.) made the point that it was not a matter to war-raint the Kansas member in raising personal privilege, and, the speaker personal privage, and, the speaker upholding the point made by the Pennsylvanian, remarked with some humor that proceedings in the house were not infrequently subject for outside comment, and that should members insist ment, and that should members insats upon rising in each instance to a question of personal privilege, the house would have its time so occupied that "it would be unable to give that calm and elaborate consideration to legislation that is its wont." Then, as the speaker hammered hard to bring Mr.

Simpson to his seat, the Kansas member persisted and declared:
"The assertions as regards the vote of members on this side is false. Every man on this side has voted for every appropriation bill, and no man would appropriation bill, and no man would have cast the restriction upon a large portion of this house contained in the speech of the gentleman from Ohio were he not dead to all sense of homor and truthfulness, having in his possession the facts from which the gentleman must have been familiar."

Several private bills were passed. The house then went into committee of the whole to consider District of Columbia legislation, and at 3:12 p. m. adjourned.

Grist of Legal Business Ground Out During the Term.

Castle Dale, June 21.-Judge Johnson opened the June term of the district court here yesterday, and dropped eascourt here yesterday, and uropped casily into the routine of what promises
to be an exceedingly lengthy session.
A number of the cases are not only of

also be watched with interest by the
people of the state at large. The following is the calendar:

Ab Kofford (the famous sheep case of Jones vs. Kofford) was then taken up, and will consume two or three days in

of the case of the Scipio Irrigation company vs. Hans Esklund. Thurman and Whitecotton conducted the plaintiff's case, and Dan Houtz was counsel for defendant. The issue involved is as to the appropriation and ownership of seven springs. The plaintiff claims they appropriated them by their predecessors, and have used said water adversely since the year 1888, except two months. This is denied by defendant, who claims that whatever use plaintiff made of the water has been in violation of his rights, which he acprefereessors, and have used said water adversely since the year 1888, except two months. This is denied by defendant, who claims that whatever use plaintiff made of the water has been in violation of his rights, which he acquired by virtue of appropriating it on grass land, and that this continued since 1877 to present time. After hearling the evidence and arguments of counsel the court decided the case in flavor of plaintiff, giving it three inches of water, except in September and October of each year, after it had flowed over defendant's meadow and the except over that was to be the defendant's water.

The court ordered venire issued for and will represent Mr. Robison in a damage suit against the receivers of the Union Pa-

The defendant in that case lost the suit, and in moving for a new trial filed affidavits setting out the misconduct of Western in going to the scene of the affray and asking questions as to how it occurred. Western admitted that he visited the scene thoughtlessly, but that he did not inquire from any one about how the affair out of which the suit arose took place. The court censured him for viewing the premises, but being satisfied that Western had no intention of violating any of his obligations as a juror let him off easy by requiring him to pay the costs of the contempt proceedings.

The lady who is charged as being the co-respondent in the adultery charge is of the highest respectability, and all are loath to question her innocence. Mrs. Martin appears to have acted hastily in the matter and with a fear that she may have drawn erroneous conclusions, the name of the young lady who is charged as being implicated is not given.
